

SHIVAM VERMA

Full Stack Developer | MERN Stack Developer | Problem Solver

📞 +91 9569222048 ✉ shivamvermacse2026@gmail.com [in LinkedIn](#) [GitHub](#)

EDUCATION

JSS Academy Of Technical Education <i>B.Tech in Computer Science and Engineering — CGPA: 7.77</i>	2023 – 2026 <i>Noida, U.P</i>
Hewett Polytechnic Lucknow <i>Diploma in Electrical Engineering — 72%</i>	2021 – 2023 <i>Lucknow, U.P</i>
St Thomas Inter College <i>High School — 86%</i>	2018 <i>Mirzapur, U.P</i>

EXPERIENCE

SmartBridge & SmartInternz <i>Full Stack Developer Intern (MERN)</i>	Sep 2025 – Oct 2025 <i>Remote</i>
– Developed full-stack web applications using MERN stack. improving overall application performance by 25%. – Designed and implemented RESTful APIs handling user authentication, data flow, and backend operations efficiently. – Implemented JWT-based authentication and authorization ensuring secure access for 100+ users. – Collaborated on real-world projects and optimized backend logic reducing response time by 30%.	

PROJECTS

Imagify – AI Image Generation SaaS <i>React, Express.js, Tailwind Css, Node.js, MongoDB</i>	Live GitHub
– Developed an AI-powered SaaS platform enabling image generation with a credit-based usage system. – Designed scalable backend architecture using Node.js, Express, and MongoDB following MVC pattern. – Implemented secure JWT-based authentication and REST APIs for user and data management. – Integrated payment workflow and optimized UI/UX for seamless user experience. – Deployed application on Vercel and Render ensuring high availability and performance.	
QuickChat – Real-Time Chat Application <i>React, Node.js, Socket.IO, Tailwind Css, Express.js</i>	Live GitHub
– Built a real-time chat application enabling low-latency bidirectional communication using Socket.IO. – Implemented WebSocket-based messaging system for instant message delivery across multiple users. – Developed secure authentication system using JWT and managed user sessions efficiently. – Ensured synchronization of chat data across clients improving real-time user experience.	
StaySphere – Property Booking Platform <i>Ejs, Node.js, Express, MongoDB, Bootstrap</i>	Live GitHub
– Developed a full-stack property booking platform with secure user authentication and authorization. – Designed and implemented RESTful APIs for managing listings, bookings, and user data. – Integrated Cloudinary for efficient image storage and optimized media delivery. – Optimized database queries and backend performance for faster response times.	

Technical Skills

Languages: JavaScript (ES6+), Java, Python, C, SQL

Frontend Development: React.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend Development: Node.js, Express.js, RESTful API Design, JWT Authentication, WebSockets, Socket.IO

Databases & Storage: MongoDB (Mongoose ODM), MySQL, Relational Databases, Cloudinary

Tools & DevOps: Git, GitHub, Postman, VS Code, NPM, Vercel, Render

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Python Certification – Infosys Springboard
- Software Engineering Job Simulation – Forage
